|---------------|--|-----------------|
| M4102k | Suds Hand Car & Truck Wash Kit | \$249.80 |
| | <i>Our Suds Hand Car & Truck Wash Kit is a thick, high suds hand car and truck wash. Leaves surfaces squeaky clean and spotless. Easily removes the stubborn soils and grime from vehicles without fear of damage to any vehicle parts that water would not damage. 1 Drum Kit (6gal Part A & 1gal Part B)</i> | |
| <hr/> | | |
| M4400k | Cleaner / Degreaser Kit | \$125.76 |
| | <i>A butyl Solvent cleaner/degreaser for detailing and general degreasing of floors, walls, vinyl, white walls, grease and grime. Use in hot or cold pressure cleaning systems, pump up sprayers, down steam injectors or low-pressure pumps. May be used up to 25 to 1 for general use. You are gonna love the way this product works! 1 Drum Kit (5gal part A & 5gal Part B)</i> | |
| <hr/> | | |
| M4420k | Grand-X Kit | \$134.00 |
| | <i>The Grand-X kit is a stand alone pre-painted panel and tractor cleaner for over the road trucks. Similar to our 4421 Panel Bright, but much easier for the user to mix. May be used in a double mixture (50 to 1) for extreme cleaning. The Number 1 product for use as a #2 in cleaning panels of rolling stock with our Two Step System. This product ships in 2 5gal pail Part A and a 2 gal container Part B. 2 Drum Kit (2 ea 5 gal Part A & 2 Gal Part B)</i> | |
| <hr/> | | |
| M4421k | Panel Bright Kit | \$148.00 |
| | <i>Panel Bright is and has been a favorite product for cleaning painted trailers and tractors on over the road trucks. Used in Automatics, brush systems, and hand held systems. Consists of Part A: 1 ea 5gal container of brown powder mix with zip top lid for easy access; Part B: 1 ea 5gal container with 3 1/2 gallon of liquid with easy pour spout; and Part C: 1 ea 2 gal (16 lbs) of white powder with zip off top lid. Also available in 5 and 25 drum packs - call.</i> | |
| <hr/> | | |
| M4423k | Road Film Remover Kit | \$138.00 |
| | <i>This Road Film Remover (RFR) is a premium vehicle wash with built in shine that is "worry free." No fear of damaging Tractors, Buses, Large Cars and other over the road vehicles. Removes bugs, road film, oil and grime accumulated by over the road vehicles. Leaves vehicles shiny. Excellent #2 product for our Two Step Machines and works great as a stand alone vehicle wash in Hot Water Systems as well. 2 Drum Kit (2ea 5gal Part A & 2gal Part B)</i> | |

MSI Super Kits

| | | |
|---------------|----------------|-----------------|
| M4426k | CNA Kit | \$184.00 |
|---------------|----------------|-----------------|

An ideal product to safely clean Tractor Cabs and all trailers, and frames. Completely safe on all surfaces not harmed by water. CNA Kits consist of Part A: 1 ea 5gal container with an aqua colored powder with zip off lid; Part B: 2 ea 5gal containers of an amber liquid.

| | | |
|---------------|---------------------------------------|-----------------|
| M4440k | Super Heavy Duty Detergent Kit | \$139.12 |
|---------------|---------------------------------------|-----------------|

Use Super Heavy Duty Detergent Kit to dissolve grease, fat, blood, diesel smoke, carbon, and other heavy build ups. This product is ideally suited to clean heavy equipment, garbage trucks, dumpsters, drive pads, restaurant vent a hoods, and other stubborn soils. It is the preferred cleaner for FRG Trailers and removing diesel soot from the upper sides of pre-painted trailers. It is a very alkaline detergent and will do a number on anodized, polished aluminum, soft metals and poor paint, so don't use it if you are not sure whether the surface is compatible. Dilute up to 40 to 1. 1 Drum Kit (2 ea 5gal Part A & 2gal Part B)

| | | |
|---------------|-------------------------|-----------------|
| M4442k | Hood Cleaner Kit | \$142.00 |
|---------------|-------------------------|-----------------|

Hood Cleaner is specially formulated for use in the Food Service and Restaurant Industries. Hood Cleaner does only one thing: Makes a normal laborious chore simple, easy and efficient. Hood Cleaner does not contain Caustic Soda, Butyl Solvent, or create foam. It simply dissolves grease. Works best when diluted with equal parts of very hot water and sprayed on surfaces to be degreased (Stainless surfaces only). Avoid bodily contact. This product is aggressive and will damage organic matter, soft metals like aluminum and of course polished or anodized aluminum.

| | | |
|---------------|--------------------------------|-----------------|
| M4444k | SC 15 EHD Detergent Kit | \$138.00 |
|---------------|--------------------------------|-----------------|

SC 15 Extra Heavy Duty Detergent is a heavy duty, caustic cleaner and degreaser. Works extremely well in kitchen cleaning, construction equipment and industrial restoration jobs. This product is not for light duty use! It's mean. SC 15 Extra Heavy Duty Detergent attacks grease, paint, blood, carbon and stubborn soils. Use carefully, it also attacks aluminum, paint and soft metals. Makes a great pre-soak for concrete pad cleaning, where oil residue and oil drips occur.

| | | |
|---------------|---|----------------|
| M4475k | Sparkle Bright Vehicle Cleaner Kit | \$83.50 |
|---------------|---|----------------|

| | | |
|----------------|-------------------|-----------------|
| M4475k5 | 5 Drum Kit | \$355.00 |
|----------------|-------------------|-----------------|

| | | |
|-----------------|--------------------|-----------------|
| M4475k10 | 10 Drum Kit | \$662.00 |
|-----------------|--------------------|-----------------|

Road film, bugs, dirt, grime, fallout and all road contamination run from our Sparkle Bright Vehicle Wash. Easily mixes, no residue, will not damage any surface not harmed by water. Vehicle surfaces not only come clean, but appear renewed with a shiny surface that you will certainly be pleased with. 1 Drum Kit (1 ea 6gal container with zip off top)

Detergents / Concentrates

| | | | |
|---|---------------------------------------|---------------------|-----------------|
| M4400-RTU | Cleaner / Degreaser | 55 gal. Drum | \$228.00 |
| <i>Cleaner Degreaser is a heavy duty water based alkaline detergent fortified with solvents and special emulsifiers designed to quickly cut through grease, oil, hydraulic fluid, and other soils from most surfaces. May be used in Two Step Machines to pre-treat frames, engine compartments, fifth wheels and other grease saturated areas. Cleaner Degreaser is a Heavy Duty Alkaline-Butyl Product and must be used with care. Soft paint, anodized or polished aluminum will be damaged.</i> | | | |
| M4442-C | Hood Cleaner Concentrate | 55 gal. Drum | \$466.95 |
| <i>Hood Cleaner is specially formulated for use in the Food Service and Restaurant Industries. Hood Cleaner does only one thing: Makes a normal laborious chore simple, easy and efficient. Hood Cleaner does not contain Caustic Soda, Butyl Solvent, or create foam. It simply dissolves grease. Works best when diluted with equal parts of very hot water and sprayed on surfaces to be degreased (Stainless surfaces only). Avoid bodily contact. This product is aggressive and will damage organic matter, soft metals like aluminum and of course polished or anodized aluminum.</i> | | | |
| M4420-GXC | Grand X Concentrate 50:1 | 55 gal. Drum | \$142.50 |
| M4420-RTU | Grand X - Ready To Use 25:1 | 55 gal. Drum | \$102.90 |
| <i>Grand X is the top-of-the-line detergent for cleaning trucks, trailers, heavy equipment, farm equipment, greasy frame rails, engines, parts and most all other painted surfaces. Grand X is a one-step alkaline-based detergent fortified with the highest quality surfactants, polymers, emulsifiers and wetting agents in the industry. Use it hot or cold, road film and diesel soot melt away without brushing when diluted 25:1. Grand X is the product of choice in the two-step cleaning process. This product is excellent for removing bugs and soil from over the road vehicles.</i> | | | |
| M4422-TWC | Truck Wash Concentrate 100:1 | 55 gal. Drum | \$248.00 |
| M4422-RTU | Truck Wash - Ready To Use 25:1 | 55 gal. Drum | \$98.80 |
| <i>Truck Wash is a concentrated alkaline cleaner with emulsifiers and grease cutters. When used in Two-Step Systems with #1 or #1A, Truck Wash will remove road film and bugs without brushing. Used in hot water systems, Truck Wash will remove road film and oily spots with ease. Truck Wash is safe in all cleaning systems, whether using as a one-step or two-step application with hot or cold water. Works very well in hard water.</i> | | | |

Detergents / Concentrates

| | | | |
|-----------------|---|---------------------|-----------------|
| M4425-SC | Super Clean Truck Wash Concentrate 100:1 | 55 gal. Drum | \$328.00 |
|-----------------|---|---------------------|-----------------|

| | | | |
|------------------|---|---------------------|-----------------|
| M4425-RTU | Super Clean Truck Wash Ready To Use 50:1 | 55 gal. Drum | \$132.00 |
|------------------|---|---------------------|-----------------|

Super Clean Truck Wash is a premium detergent fortified with state-of-the-art emulsifiers, gloss enhancers and wetting agents. Hot or cold, Super Clean Truck Wash is designed to rinse quickly and dry without streaking or spotting the finish. Will quickly disperse road film, bugs and diesel soot without brushing. Use as a one-step or two-step detergent when cleaning buses, cars, trucks, trailers, RVs, aluminum or vinyl siding. No need to worry about anodized or polished aluminum here; Super Clean Truck Wash is non-caustic and is safe on any surface that is not affected by water. Our #1 selling vehicle cleaner.

| | | | |
|-----------------|---|---------------------|-----------------|
| M4440-SC | Super Heavy Duty Concentrate 100:1 | 55 gal. Drum | \$272.00 |
|-----------------|---|---------------------|-----------------|

| | | | |
|------------------|---|---------------------|-----------------|
| M4440-RTU | Super Heavy Duty Ready To Use 25:1 | 55 gal. Drum | \$148.00 |
|------------------|---|---------------------|-----------------|

Super Heavy Duty Detergent is an alkaline cleaner for use in cleaning heavy soil, grease, and dirt. This product may be used hot or cold in removing heavy build-up; however, hot water systems enhance the caustic nature of Super Heavy Duty Detergent. Super Heavy Duty Detergent is ideally suited to clean heavy equipment, garbage trucks, and dumpsters. Exterior cleaning of trailers where chicken fat, diesel soot, and oils accumulate are easily cleaned. Used hot, this product will dissolve and emulsify fats and grease. Cold pre-wash solutions may be used safely on painted trailers for complete removal of stubborn soils.

| | | | |
|-----------------|-----------------------------|---------------------|-----------------|
| M4462-DR | Panther Vehicle Wash | 55 gal. Drum | \$795.00 |
|-----------------|-----------------------------|---------------------|-----------------|

| | | | |
|-----------------|-----------------------------|--------------------|----------------|
| M4462-PL | Panther Vehicle Wash | 5 gal. Pail | \$92.00 |
|-----------------|-----------------------------|--------------------|----------------|

Panther Vehicle Wash is a premium 100% active powdered detergent for removing road film, bugs, and fall out from cars, trucks, buses, vans, tankers, and all over the road vehicles. This biodegradable detergent, fortified with emulsifiers, gloss enhancers and wetting agents is top of the line. Highly concentrated and designed to work in both hot and cold water high-pressure washer systems. Panther Vehicle Wash is non-caustic, free rinsing, and will not harm vehicle surfaces, polished aluminum, anodized aluminum, glass, rubber, or painted surfaces. You will like what you see with Panther Vehicle Wash both in performance and economy.

Two-Step Preps / Brighteners

| | | | |
|------------------|---|---------------------|-----------------|
| M4410-C | #1 Acid Prep Concentrate 100:1 | 55 gal. Drum | \$308.00 |
| M4410-RTU | #1 Acid Prep Ready To Use 25:1 | 55 gal. Drum | \$92.00 |
| M4410-C5 | #1 Acid Prep 5 Concentrate 150:1 | 5 Drum Kit | \$385.00 |

A true HF #1 detergent used in a two-step process to pre-treat road film, diesel soot and aluminum surfaces. Designed to use in high-pressure two-step systems with a dilution ratio of 25:1. Road film and grime as well as diesel soot are removed without brushing when used in conjunction with Largo #2 type detergent. #1 Acid Prep quickly brightens aluminum surfaces, neutralizes completely with Largo #2 product and can be used with hot or cold water at high or low pressure.

| | | | |
|------------------|--|---------------------|-----------------|
| M4411-C | #1A Acid Prep Concentrate 100:1 | 55 gal. Drum | \$295.00 |
| M4411-RTU | #1A Acid Prep Ready To Use 25:1 | 55 gal. Drum | \$112.20 |

A phosphoric/citric #1 detergent used in the two-step process to pre-treat road film, bugs, diesel soot and clean aluminum on vehicle surfaces. #1A Acid Prep is completely safe on all surfaces. #1A Acid Prep was designed to use in high-pressure two step systems with a dilution ratio of 25:1. When used in conjunction with any Largo #2 type detergent, road film, bugs, and diesel soot are removed without brushing. #1A Acid Prep brightens aluminum surfaces, neutralizes completely with Largo #2 product and can be used with hot or cold water at high or low pressure.

| | | | |
|--------------|---|---------------------|-----------------|
| M4453 | Mirror Brite Aluminum Maintainer | 55 gal. Drum | \$282.70 |
|--------------|---|---------------------|-----------------|

Mirror Brite Polished Aluminum Maintainer is an exceptional product desinged to "maintain" that polished aluminum appearance on wheels, fuel tanks, tank trucks, feed trucks and fuel trucks. Mirror Bright is a non-etching cleaner and brightener that with continued use maintains the appearance of polished aluminum surfaces. Does not turn the aluminum surface "white, satin, or dull" like Aluminum Brighteners will. Does not contain hydrofluoric acid, ammonium biflouride, hydrochloric or sulfuric acid. It may be used in hot or cold water systems with either low or high-pressure spray. We find that it works best when used in our Two-Step Systems along with our 4425 Super Clean Truck Wash. It may be used on most surfaces not harmed by water.

Acid Brighteners

| | | | |
|----------------|------------------------|---------------------|-----------------|
| M4450-C | ABX Concentrate | 55 gal. Drum | \$316.80 |
|----------------|------------------------|---------------------|-----------------|

ABX is a specially formulated blend of acids, wetting agents, inhibitors, and chelating agents designed to rapidly remove salt, stains, soot and contaminates and brightens aluminum surfaces instantly. ABX rinses freely and dries streak-free. ABX may be used with hot or cold-water application, with a dilution ratio of 50:1. ABX is an industrial-strength product and must be properly used by trained personnel. Apply through pressure washer with a pump saving down stream injector, or use pump-up sprayer, foaming device or through acid arches. Use protective clothing and face shields at all times when using this product. Uses: Aluminum trailers, painted trailers, tankers, reefers, dump beds, fuel tanks, pontoons, and more.

| | | | |
|------------------|--------------------------------------|---------------------|-----------------|
| M4452-C | Trail Brite Concentrate 100:1 | 55 gal. Drum | \$308.00 |
| M4452-500 | Trail Brite 500 50:1 | 55 gal. Drum | \$176.00 |
| M4452-250 | Trail Brite 250 25:1 | 55 gal. Drum | \$116.00 |

An acidic blend enhanced with special wetting agents and emulsifiers used in two-step process, Trail Brite rapidly removes road film, bugs and diesel soot and cleans aluminum surfaces on vehicles without brushing when used in conjunction with any Largo #2 type of detergents. Quickly brightens aluminum. Designed to use in high-pressure systems with a dilution ratio of 25:1. Trail Brite neutralizes completely with our #2 product. Uses: Aluminum trailers, painted trailers, tankers, reefers, dump beds, fuel tanks, pontoons, and more.

Go Green - Largo Two-Step Systems

For over 25 years we have produced Two-Step Cleaning Equipment.

Our process has cleaned countless vehicles, buses, tractors, trailers, boats and other rolling stock, without brushing and with cold water!

With the ever increasing cost of diesel, kerosene and LP gas, it might be time to really look at a proven system that is not carbon based. Put your money in your pocket!

No more fuel cost, no burner issues, less overall maintenance. Our products make you money, they are reliable and we have years of experience. Check it out today!

COLD WATER - NO BRUSHING - 15 MINUTES TO A CLEAN TRUCK!

We sell ONLY to professional Mobile and Contract Cleaners. You Pressure Pro's get breaks because you know that when it breaks, it's on you to repair, service or replace parts as required. It's steel, brass, metal; engine, pump and components. It has no brain, and it will break down, probably when you need it the most. Preventive maintenance, checks and service is the key to equipment longevity.

If you are not service capable, we encourage you to buy your equipment from a distributor that has service technicians available to assist you.

- 1) We do not provide labor warranty, but, we do provide a 90 day warranty on defective parts and components. We also assist with warrantys from engine, pump and burner manufacturers.
- 2) Seals, rubber O-rings, packing, check valves, fuel pumps, and pressure hoses are very seldom warranty items - UPS / FedEx Freight are the only winners here. With that said, remember, warranty cannot be determined over the phone. The parts require inspection and a determination prior to replacement. So, purchase a new part, and when our warranty department completes its review, expect a replacement part. You must prepay the incoming freight and we will prepay the freight back to you on a warranty part. We do not send out no charge items, pending a warranty review.
- 3) When you purchase a pressure washer from MSI, you may come here and pick it up, or we can ship it common carrier to you. While we try to outsmart the freight companies, they always seem to outsmart us! So, if you elect to ship the equipment, make sure you:
 - A. Do not sign for damaged equipment! Refuse them. If you do sign for it, then it is between you and the freight company.
 - B. When you do accept the equipment in good condition from the freight company, make sure all is well.
Note: nuts, bolts, fittings and other components can work loose in transit. Thoroughly inspect the machine.
- 4) Installation: Purchase a quality, thoroughly charged battery. Cutting corners here is a no-no. You may, and we suggest, install dual parallel batteries on 25 amp burners. Make sure the belts are tight, and recheck after the first 20-25 hours. Misalignment will cause premature shaft seal failure. Here are some do nots:

DO NOT:

- Install your machine on the rear of a trailer.
- Install your machine on a single axle trailer less than 8 feet long.
- Install your machine in a closed trailer without enough ventilation for make-up air - if not your coil will soot up.
- Restrict the stack exhaust in an enclosed trailer.
- Install in an enclosed trailer without backdraft protection - your unit will freeze.

DO:

- Read your Installation / Start-Up Procedures.

TERMS: Visa, Master Charge, Discover, American Express, Pay Pal, Bank Transfer, Prepaid Check and of course the good 'ole American Dollar.

SHIPPING: Freight on board our dock. We will make every attempt to provide you with the best rates available to us. We recommend a freight quote and prepaid shipping. Residential and tailgate deliveries are very expensive. Pick-up at the truck terminal is your best choice.

Detergent products are not returnable.

Possession of this Catalog and/or Price List may not entitle you to purchase from MSI.
